# ORIGIN STORY

Once upon a time, in a land far far away, jetpacks entered the stratosphere and crash-landed all over the world. They left their planet to escape death, violence, and famine. They came to Earth looking for a bright future filled with peace and prosperity. They were mistaken. Earth is far worse than their planet. Their only hope is to collect as many coins as possible and spread their message of peace to all inhabitants of Earth, no matter the cost.

# GREETINGS

Welcome, inhabitants of Earth. We are the Evaders! There are 5,555 of us jetpacking through the world to get back to our planet and our community of Evaders. We are the most evasive NFTs minted on the Ethereum blockchain, combined with our unique, revolutionary play-to-earn gaming experience. Your 1/1 Evader to own forever!

# MISSION

04

Our mission is to shape a new era of NFTs using retro-style arcade gaming.

In Escape my planet, you will be able to play an Evader and jetpack through the planet to escape the obstacles of Earth. You will be challenged to evade trees, bushes, birds, and many other dangerous objects. The game's difficulty is based on the speed and frequency of obstacles. The farther along the path you survive, the more difficult the level will become. Your score will increase proportionally to the distance and difficulty.

Check out the beta example on the right!

# FAQS

09

## WHAT'S AN NFT?

NFT stands for non-fungible token. It may sound complicated, but it is a token that is utilized to represent ownership.

## WHAT IS ESCAPE MY PLANET

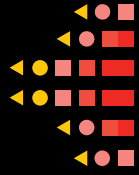

Evaders are a collection of 5,555 unique NFTs stored on the Ethereum blockchain coupled with a unique retro play to earn P2E gaming experience.

## WHAT CAN MY EVADER DO?

You will be able to show off your unique Evader as a social media profile picture. The Evader will grant you exclusive access to in-game benefits/bonuses. You will also unlock a series of play to earn games, the first of which is already in beta.

## WHAT'S TO COME?

We will be creating a virtual space where all our holders will be able to converse, show off your Evaders, and trade them. COMING SOON!
